Hot spots are very painful and itchy, so dogs continually lick and chew the area, which further worsens the condition. You may also notice hair loss in the area.

Hot spots can occur anywhere on a dog ' s body but are most common on the head, limbs and hips. Hot spots are also more likely to develop in warm weather and high humidity.

Bone broths are an advanced food. Secondly, start with short-cooked chicken – legs and wings and good for gelatin. Only cook for 45 mins to an hour to minimise glutamates. As your gut starts to heal, you will find yourself better able to tolerate these things and be able to eat a wider range of foods and some of the stronger meat stocks.

.
