tram d201 base station cb radio. Condition is "For parts or not working". Shipped via UPS. This Tram D201 cb radio was given to me by my father in law before he passed away. He bought it new in the 70's. And has been in a dry storage closet more than 10 yrs. It still powers up but I don't know if it's working or not, therefore I'm selling it for parts only.

performance similar to ANAN-100. With the 10 dB preamp turned on you can expect MDS figures better than -131 dBm and up to -136 dBm on some bands. On the 2m band I could hear a signal at -140 dBm which is exceptional. This would make the radio a real contender for weak signal work on the 2m band.
